L S G BRANCH
Deputy Commissioner Hassan District

General Secretary to Government,

Bangalore

I have the honour to state that at the last Rate-Payers Conference held at Arkalgud under my presidency on the 26th October last a resolution was passed to the effect that the Government may be moved to convert the Arkalgud Minor Municipality into a Town Municipality, in view of the fact that it is a mofussil town with fairly good commercial importance and with sufficient scope for development gradually. The matter was referred to the local Municipal Council and they opined that the resolution of the Conference might be sanctioned as a special case. The Sub Divisional Assistant Commissioner and President of the Municipal Council also supported the proposition, and I enclose herein copies of the resolutions passed at the Rate Payer's Conference and by the Municipal Council, with a copy of the Municipal President's letter No 203-6 dated 18th March last on the subject for reference and favour of early orders of Government.

As it is, the Municipality has got a population of 270 and is 01 square miles in area. The normal receipts and expenditure of the Municipality were about Rs 6800/- and Rs 63 /- respectively on average of the last three years 1925-6, 1926-7 and 1927-8. Arkalgud is a fairly busy place noted for coffee and cardamom industry and the local people appeared to be to be enthusiastic to have the Municipality in lieu of a Minor one. And if the conditions required for a Town Municipality cannot be fulfilled, I am of opinion

opinion that it may, as a very special case, be converted as a
municipal

I request you to kindly place the matter x before the C
and obtain their sanction to the proposal at an early date.

I have the honour to be
Sir,
Your most obedient servant

Letter No 268-28/Ml dated 12th March 1929 from the President, Municipal Council, Saklespur, to the Deputy Commissioner, Hassan District

Re converting Saklespur Minor Municipality into Town Municipality

I have the honour to enclose herein an extract from the Proceedings of the Ratepayers' conference held on the 26th November 1928 for favour of your kind perusal on the above subject

The need for raising this Municipal Council into a Town Municpality was explained in my address at the above Rate Payer's Conference Vide extract enclosed for ready reference

Although the area and population of the town at present are small, being 04 square miles and 2270 respectively, You are aware that the town is in course of rapid expansion allround, with the need to build many quarters for Government officials, the proposed Rice Mills and Tile Factory and additional houses for many people and labour population who have at present no accommodation Further itinerant traders and other merchants who come from Mangalore and other parts outside the state come and remain here for long periods of over one or two months every year and the business and traffic that are transacted in this place are very considerable

Being the centre of the Malanad, several problems of sanitation and improvement of public health, development of educatimal facilties, and of faciltiees of transportation and traffic arise The enlarged powers of representation of the citizens and power of management which will result from the conversion into a Town Municipality will greatly help in tackling these questions In these circumstances, I request you to kindly approach and obtain sanction of Government, at least as a special case, for this Municipality being made into a Town Municipality as desired by the ratepayers from the next official year

' Extract from the address given by the President Municipal Council, Saklespur in connection with the Ratepayers Conference held on 26-11-28 1928

x x x x

Para 3 I shall now proceed to mention our lines of action in this Municipality in the past and a few suggestions for the future

(a) The Administration report just now read gives a brief account of our work You will see that our receipts, i e , income for the past three years are -

Year	Income	Expenditure
1925-1926	9658-15-9	8525- 3-10
1926-1927	11450-14-8	10733-11- 0
1927-1928	10847-10-0	12102- 1- 2

Though there is not much progressive increase, our income is fairly high, especially considering that the town is a small one with a low population of about 2270 This brings me to one of the suggestions which figures largely in the subjects sent up today for discussion Other towns containing a larger population and bigger ezg , Holenarasipur, Arkalgud, Arsikere, Hassan, have not got a correspondingly large income Further, this town is of considerable commercial importance and activity It is the centre of cardamom and coffee trade, prabably easily the most important in the State in respect of the former Two rice Mills are shortly going to rear up their chimneys within the limits of the town It is the Head quarters of the big European and Indian planters Above all, it is the gateway and metropolis of the Malanad or at least the Hassan Mal anad In view of these and other circumstances, though the town is at present small, it is a growing place and the desire of the people to see it raised into a Town Municipality appears to be a reasonable request
